

## THE CHANCE FOR OUTLAWS TO EVADE PURSUERS

Net Is Tightening Around Dashley and Acosta; Capture of Schmidt Is Described by Eyewitness.

(SPECIAL DISPATCH TO MORNING JOURNAL)  
Deming, N. M., Feb. 22.—How Schmidt, one of the jail-breakers who took part in the fight Sunday near Rincon in which Sheriff D. B. Stephens was killed, was captured was correctly told for the first time by Fred Sherman, who arrived from Rincon this afternoon with City Marshal J. C. Tabor.

"With the help of two Mexican farmers, who had seen Schmidt running toward the house near the Rio Grande, we found the trail of the fugitive," said Mr. Sherman.

"We were then a short distance from Rincon. The trail was plain because of the broken shoes that left peculiar and plain impressions in the soft, boggy soil. While W. C. Simpson and J. C. Tabor kept the trail I followed in a Ford.

"We decided after a short time that the best thing to do was to go around Schmidt and head him off. We drove to the Leansburg diversion dam arriving before midnight. Here the river, the Santa Fe railroad and the rock highway run very close together.

"For a time we lay out in the rocks watching. Mr. Bath, who is the attendant at the dam, came out on one of his inspection tours and discovered our car. We knew he thought we were the bandits and not far off. We succeeded in correcting this impression and were invited by him to move our headquarters to the government house on the steep rocky bluff between the railroad and the highway. With his field glasses we could easily survey every part of the pass. Tabor and I had gone away for a few minutes to telephone and when we returned Simpson and Bath were searching the fugitive. Simpson and Bath had gotten the drop on him from a pile of rocks facing the dam in the turn of the road. Schmidt had come walking slowly down the road about 6 o'clock Monday morning.

**Fugitive Gives Up.**  
"At the command 'throw up your hands' from Simpson, the fugitive smiled in a way sort of way and slowly complied. In answer to the question, 'Have you a gun?' he said 'Yes but I am getting rid of it now' and he threw a pistol from his belt to the ground."

The prisoner was taken at once to Las Cruces where he is now in jail. Schmidt says that Starr, also a prisoner at Las Cruces, is probably the man that shot Sheriff Stephens, according to his story he was the man that handled the 30-40 rifle in the fight.

The bullet taken from the sheriff's body was of this caliber.

From Mr. Sherman's statement after reaching Deming from Rincon this afternoon, it seems certain that Acosta and Dashley are not now very far from Rincon, and are headed toward El Paso.

Near midnight Monday a saddle was stolen by one of the fugitives at a ranch two miles from Grama, the next station north of Rincon. There is a posse south and north on the river and it is believed that the men can not escape the net that is being drawn about them.

**Small Chance for Outlaws.**

Undoubtedly they have also stolen a horse. Monday morning Sheriff Felipe Lucero and a posse which Fred Sherman, W. C. Simpson and J. C. Tabor had joined after the delivery of Schmidt at Las Cruces, picked up the trail on the south side of the Rincon mountains.

The fugitives had not crossed the small range in the night, as had been expected, but turned toward Grama. A Mexican woman saw Dashley and sent word to the posse by her husband. At Grama they found the men had asked for water at a Mexican section laborer's shack. This was about 1:30 o'clock Monday morning. The trail to Grama was plain, but was lost soon afterwards. Men were sent to Engle and Cutler but Sheriff Lucero believed that the men turned down the river and he started a part of his posse to head them off. Mr. Sherman believes that the two will be taken soon at or near the scene of Schmidt's undoing. He declares that Dashley was wounded in the fight near Rincon. It is evident, according to Mr. Sherman that the men do not know the country and that they are hungry and tired.

**Danish Steamer Liberated.**

London, Feb. 22 (6:46 p. m.)—The Danish steamer Berghus, from Copenhagen for Liverpool, which yesterday was reported taken into Stearn by a German armed trawler, has been liberated and has left Swinemunde for Liverpool, according to an Exchange Telegraph company's dispatch from Copenhagen. The cargo of the Berghus was untouched, adds the dispatch, although the Germans urgently needed the bulk of it.

## TO FIGHT TUBERCULOSIS

The best weapons any sufferer can obtain are those which Nature places close at hand—fresh air, plain, well-cooked food, rest and personal hygiene. Also, it is well to keep your hopes high and your courage strong.

But many cases do not yield even to the fullest exercise of helpful measures. When in such a case there is need for something more, Nature does all she can, but must have help—and medication is indicated.

In many instances Reckman's Alternative has been used with beneficial results. No exaggerated claims are made for it. Its reputation rests on what it actually has done, and it is safe to try, for it does not contain any poisonous or habit-forming drugs. You can get it from your druggist or direct.

Reckman Laboratory, Philadelphia.

## HALL CAINE'S MASTER FILM AT CRYSTAL SOON

"The Eternal City" Booked for Friday and Saturday of This Week at Extremely Low Admission.

A mammoth, elaborate photo-production of Hall Caine's immortal novel and play, "The Eternal City," with Basilio Frederick, and produced amid the grandeur and beauty of modern Rome, the attraction underlined for the Crystal Friday and Saturday of this week marks a new era in dramatic picturization.

Any attempt to convey to the reading public through the medium of cold type in a narration of the bare facts of this amazing photo-spectacle would naturally lose the astounding power and charm of the subject, for there are times when words fail to awake the imagination to its full duty.

This pictorial version of Hall Caine's thrilling romance presents the stirring incidents and climaxes, the nobility and tragedy, the elements of love and betrayal and the beautiful idealism and humanities of the original plot, with a wider range, in truer colors and with better strokes than were possible in the novel or play, and will therefore render the inspiring story its greatest measure of immortality.

"Pauline Frederick attains a faithful conception of the ardent and impetuous, but tender and magnetic, qualities of Donna Roma, and portrays this exacting role with incomparable charm and grace. Thomas Holding identifies and embodies David Rossi, the idealist, and the devoted lover of Roma. Fuller Melish, in his physical aspects and convincing strength and pathos, admirably takes the part of his holiness, Pius XI. In fact, the company selected for the difficult interpretation of the plot is brilliant in its strength, and even the minor roles are all portrayed artistically and skillfully. This is but a brief excerpt from the recent review appearing in the Los Angeles Examiner from the pen of Milton Knowles.

"The Eternal City" is to be witnessed by fortunate Albuquerqueans for but a small portion of the customary prices for this attraction, namely, 10 cents for children under 12 years of age and 25 cents for adults to any part of the theater.

## EMPLOYMENT BUREAU FOR GIRLS IS LATEST PROGRAM OF Y. W. C. A.

For several years the Y. W. C. A. has conducted a free employment bureau, thus meeting the girl at her greatest need and putting her on her feet for the time being. This emergency work still continues and will for it is most important, but the bureau also tries to guide the girl into the best possible permanent employment suited to her capacity and temperament, and if she is unprepared, to bring her in contact with opportunities for training for the work of her choice.

Much is heard about national "preparedness" these days, and right here there is a great lesson for the individual, for the time has come when only those who are ready and prepared for life, are going to receive the best positions.

The Y. W. C. A. has realized this for several years and has been working toward reducing unemployment and at the same time in raising the standards of efficiency for all women workers, yet, all the time, having the interests of the girls at heart but recognizing the interests of the employer also. All will agree that the girl has a right to fair wages and good working conditions but also has the employer to the most efficient service, and the association employment bureau is not only a means for locating girls in positions but it is rather a means to help them find their place in life and to make them ambitious to do their best work and to get as high as possible in the most chosen work and to make the most of themselves as members of society.

The local association has been trying to meet this need and is now nearer to its desire. Through the courtesy of the board of education and the superintendent, arrangements are being made for special classes in cooking and training for waitresses, under the direction of Miss Madden, the domestic science director. These classes will probably be in courses of twelve lessons each, three evenings a week, at as small a fee as possible per person, so as to come in reach of any girl who may want the course. Any girl or woman is eligible to the classes. At the end of the term, the association will be able to recommend personally to employers such girls as they may need. A course in chambermaid work is being planned, and later, if there seems to be a need and demand for them, classes in training for the business world will be added.

It is hoped to start these classes as near the first of March as possible. Mrs. R. E. Dietz is the chairman of the committee relating to the employment bureau.

For further information regarding the classes, see the secretary at her office.

## Law Officers Elected.

Chicago, Feb. 22.—John V. Sees of Columbus, Ohio, was elected president of the Fraternal Society Law Association here today. Other officers elected were: Treasurer, W. E. Steel of Denver, Colo., and secretary, A. W. Fulton of Chicago.

## Antoinette Donnelly's Talks to Women on Beauty Topics

### Soiled Powder Puffs.

AREN'T you amazed sometimes to see a fair complexioned, immaculately gowned woman, immaculately groomed from head to foot, a dire into her bag and produce a powder puff or cosmetic skin so soiled, looking that you shrink at the thought of its being applied to her pretty face? Any public washroom furnishes this sight frequently every day.

Many skin blemishes are caused through the constant use of soiled powder puffs and cosmetic skins. The most sanitary and healthful way of applying powder is with absorbent cotton which is thrown away after each application.

The little draw-up powder puffs in which the covering can be gathered up and protect the puff when not in use is the best form in which this article may be carried out. However, as I said in a recent article, powder puffs are not the most desirable means of applying powder because they scatter it when it is being applied, and where powders contain lead and other poisonous substances eye troubles often follow.

If you use a cosmetic never be found with a soiled one in your bag. The cosmetics, so that there is no excuse but carelessness to offer. The little powdered leaflets sold in booklets have the advantage of assured cleanliness, for you tear a leaflet from the book and after having used it throw it away.

The habit of lending your powder cloth to your companion who has forgotten hers is not one to be recommended, as any one with a little thinking may realize. Skin diseases are many of them infectious, so why take a chance? Let your companion use some of your powder, if you wish, and let her apply it with her handkerchief or her fingers—but don't be generous with your powder puff. You're taking chances enough with it as your own personal belongings—that is, unless you are scrupulously clean in this regard.

## FAMOUS ARTISTS AT AUDITORIUM THIS EVENING

Second Recital of Series Given Under Auspices of Fortnightly Club Sure to Draw Out Large Audience.

"Harrison-Fischer" has nothing to do with the man who paints pretty girls for the covers of popular magazines, but the combination they say, has equal drawing power. Albuquerque will find this true tonight at the high school auditorium when Charles W. Harrison, tenor, and Otto L. Fischer, pianist, will appear in recital.

Charles W. Harrison, the Celebrated Tenor, Who With Otto L. Fischer, the Famous Pianist, Will Appear in This City Tonight, Under the Auspices of the Fortnightly Club at the High School Auditorium. Tickets on Sale at Grims-Shaw's.

under the auspices of the Fortnightly Music Club.

All the musical magazines have lately devoted a good bit of space to the successes of these two artists, and both men come highly recommended by the largest musical organizations and best critics in the country. Mr. Harrison, in fact, has found it necessary to resign his position as

Otto L. Fischer, the Pianist, Who Will Appear at the High School Auditorium Tonight, at 8:15 p. m., Under the Auspices of the Fortnightly Club.

### Antoinette Donnelly's Answers.

B. V. D.: The bending exercise is about the best there is for reducing the hips. It is done by holding your knees stiff, then begin with hands brought together over your head and try to make your finger tips touch the floor. Practice this exercise for about twenty minutes night and morning.

LOUISE AND STELLA: You can take two-thirds peroxide to one-third ammonia for use in removing superfluous hair. Apply it once a day. Let it dry on the face.

MISS LILLIAN L.: I cannot gather from your letter just exactly what is wrong with your eyebrows. Do you mean that they have grown together just above the bridge of your nose? If that is so, you can take a pair of tweezers and pull out a few hairs each day and apply a touch of peroxide and ammonia mixed to the little wound.

MARGARET E. M.: It is absolutely necessary to wash your hair often than once in two months if you want a clean healthy scalp and healthy hair. The proper frequency of shampooing depends upon the condition of the scalp and the amount of dirt to which the hair is exposed. For the average person once in three weeks is often enough to shampoo the hair.

ADELIA F.: I should continue with the castile soap. If I were you in preference to any other. You can use a mixture of oatmeal and bran if you wish instead of soap. It is an excellent cleanser and leaves the skin soft and smooth. Take equal parts of oatmeal and bran and put about four tablespoons in the cheesecloth bags about four or five inches square. Place in the water and when it becomes milky use the bag as you would a washcloth.

Principal singer at the Fifth Avenue Presbyterian church in New York, which paid him \$5,000 per annum, in order to fill his concert and festival engagements. Mr. Fischer, who has been playing with Harry Evans, the English basso-cantante, has created unbounded enthusiasm wherever he has appeared. It is a rare treat to have these two men, Mr. Harrison and Mr. Fischer, appear upon the same program.

### Interesting Program.

The program itself is unusually pleasing. Probably first in musical will be the beautiful ballade by Mr. Harrison which he never fails to sing with such sympathy that they go straight home to the hearts. There will be a number of songs by American composers, notably MacDowell's "Nightingale," and Campbell-Tipton's "Spirit Flower." A composition of two by Charles Wakefield Cadman, who is so pleasantly remembered in Albuquerque, will also find place upon the program. Mr. Harrison's big number will be the great tenor aria from "Aida."

Mr. Fischer's part of the program will contain an arrangement of the perennially delightful "Blue Danube Waltzes," several compositions by Chopin, "The Dream of Love" by Liszt, "The Wind" by Alkan, and one or two of his own compositions. The latter will be awaited with interest, for Mr. Fischer is gaining a reputation as a composer as well as a pianist.

Those who were at the Powell concert will be glad to know that the beautiful Steinway piano used by Mr. Fischer will also be used by Mr. Fischer. This piano was shipped here from Denver purposely for the Powell concert and at Madame Powell's request, and the Knight-Campbell company has courteously offered it to the Fortnightly club for the Harrison-Fischer recital.

## PLATTE ON RAMPAGE; FARMERS LEAVE HOMES

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Lincoln, Neb., Feb. 22.—The flood waters of the Platte river have spread to between three or four miles in width opposite Ashland, on the Sappo side. A number of farmers have been compelled to leave their homes but there have been no casualties. Thus far all the railway bridges have been able to withstand the pressure of ice gorges but some have been weakened. The condition along the lower Platte can not be said to be improved as a great mass of ice is still to move out.

After being marooned for several hours on a floating cake of ice John Grainger was rescued tonight by men who managed to reach him in a boat. Bert Brown, toll bridge keeper near Ashland, with four or five men, are marooned in Brown's house near the bridge. The house is in danger of being wrecked and men are watching in boats. The toll bridge is threatened as the ice gorge fails to yield to dynamite charges.

Near Lyons, the steel bridge which spanned the drainage ditch was destroyed by an ice gorge.

Mr. Rodgers is regarded by state department officials as particularly well qualified to handle the troublesome questions which are constantly arising in the government's relations with Mexico. He is a native of Columbus, Ohio, and has been in the consular service since 1905 when he was appointed consul-general at Shanghai. He was sent to Havana in 1907.

Otto L. Fischer, the Pianist, Who Will Appear at the High School Auditorium Tonight, at 8:15 p. m., Under the Auspices of the Fortnightly Club.

## PROTEST FROM S. A. R. AGAINST SPANISH READER

Based on Article Making Comparison of Washington and Simon Bolivar; Klock Speaks on Preparedness.

At the annual meeting of the Sons of the American Revolution, held last night at the Alvarado hotel, Col. R. M. Twitchell of Santa Fe delivered the principal address. His subject was "Lew Wallace, the Man and His Book." Mr. Twitchell is well known for his knowledge of matters historical, and his lecture of last night showed deep study of the career of Wallace in civil, military, and official affairs. The book Ben Hur was carefully analyzed during the course of the lecture, at the conclusion of which one fifty lantern slides were shown illustrating the life of the former governor.

Former Governor L. Bradford Prince was the honor guest of the society, and responded brilliantly to a toast on patriotism. George S. Klock spoke briefly on the issue of preparedness, and spoke enthusiastically by his remarks on that subject. Prof. Romeo R. Hill of the University of New Mexico gave an interesting response on "Nationalism and Internationalism."

### Twitchell Is President.

Following the historical and literary phase of the society's meeting, matters of business were taken up, including an amendment to the constitution by which the registrar was included among the officers of the society which may succeed themselves in office. A resolution was adopted, directed to the state board of education, protesting against the use in the public schools of the state of a Spanish reader containing a comparison of Washington and Simon Bolivar.

The following officers were elected: President, Colonel Twitchell; first vice-president, T. P. Martin of Taos; second vice-president, M. K. Wylder; third vice-president, K. W. Edwards of Fort Sumner; fourth vice-president, Elmer E. Stouffer of Raton; secretary, Pearce C. Roddy; treasurer, O. A. Maston; historian, Professor Worcester; chaplain, John W. Elder; registrar, Frank W. Clancy.

### Would Mark Chihuahua Trail.

On assuming the chair, Colonel Twitchell spoke of the activities open to the Sons of the American Revolution, and proposed that during the coming year the society take up the task of marking the Santa Fe-Chihuahua trail, following the plan which was used in the marking of the old Santa Fe trail.

## HAVANA CONSUL GENERAL SPECIAL AGENT IN MEXICO

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Washington, Feb. 22.—James Linn Rodgers, consul general at Havana, has been selected to act as special agent of the state department representing the United States for the Carranza de facto government pending confirmation by the senate of Henry Prather Fletcher's nomination as ambassador to Mexico. Mr. Rodgers will leave Havana immediately for Washington to confer with President Wilson and Secretary Lansing before taking over his new task.

It is understood that Consul John R. Sullivan, who has been serving as special agent and traveling with General Carranza most of the time since the overthrow of Huerta, will be transferred to the consulate at Guadalajara, one of the important consular posts in Mexico.

The decision to send the consul general to take charge of the diplomatic affairs in behalf of the United States was reached when it became apparent that there would be considerable delay in establishing an ambassador at the seat of the Carranza government. Mr. Fletcher, whose nomination has been held up in the senate since December 17, still is at his post as ambassador to Chile, and it probably will be several months before he can assume the new office even though confirmation is voted without much further delay.

The foreign relations committee of the senate meets tomorrow to consider the Fletcher nomination and there is every indication that the republican members, while still dissatisfied with President Wilson's explanation of the recognition of Carranza will not continue opposing confirmation.

Mr. Rodgers is regarded by state department officials as particularly well qualified to handle the troublesome questions which are constantly arising in the government's relations with Mexico. He is a native of Columbus, Ohio, and has been in the consular service since 1905 when he was appointed consul-general at Shanghai. He was sent to Havana in 1907.

### Stuffs Win and Lose.

Albany, N. Y., Feb. 22.—Suffragists scored a victory in the state assembly today but sustained a temporary setback to their plans in the senate. By a vote of 101, the assembly judiciary committee reported favorably the Brereton bill, introduced at the request of the woman's suffrage party, which is designed to bring about another referendum on the suffrage question at the general election in 1917. The judiciary committee of the senate, after considering a companion measure for more than two hours deferred action on it for two weeks.

## A Distinctive Reason

What is the chief reason for the superiority of Dr. Price's Cream Baking Powder?

There are several good reasons, but there is one which distinguishes Dr. Price's from other baking powders.

This reason, which every woman should know, is that Dr. Price's Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.

There is no alum nor phosphate in

## DR. PRICE'S CREAM BAKING POWDER

MADE FROM CREAM OF TARTAR DERIVED FROM GRAPES

## BACA ASSIGNED TO SOLVE CHAVEZ MURDER MYSTERY

Alianza Hispano Americana Employs Attorney as Detective in Effort to Learn Who Killed One of Its Members.

Fresh efforts to find the men who are responsible for the murder of Jose N. Chavez, the saloon keeper of San Jose, who was killed nearly two weeks ago, are being made. The county commissioners have offered a reward of \$200, and the Alianza Hispano Americana, to which Chavez belonged, has entered the chase by employing Elnora Band, another member, as detective, to work on the case.

Prof. John D. Clark, head of the chemistry department of the University of New Mexico, is working upon the possible clue furnished by his finding blood on the blade of an axe. Professor Clark, however, needs more blood for his tests. That which he drew from Jack Nelson Sunday at police headquarters was not enough. The police are trying to find another patient for him.

The hearing on the writ of habeas corpus, at which W. A. Keeler, attorney, will make an effort to procure the release from jail of the four Mexicans charged with the murder, is scheduled to begin at 2 o'clock this afternoon before Judge J. P. Raynolds, of the district court. The testimony given at the preliminary hearing, at which Judge Pedro Tartaglia held the men to the grand jury, probably will be repeated almost entirely in the district court.

The four men are Angelo Rodriguez, Jose Medina, Anastasio Giteez and Guadalupe Roches.

## FARMERS' ASSOCIATION DEMANDS GOOD ROADS

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Kansas City, Mo., Feb. 22.—The Farmers' Association of America, a temporary organization which opened a three days' meeting here yesterday with the idea of combining all farmers' organizations, is against the preparedness of the extreme militarists. Instead, the association is preparing a resolution to the president and congress, demanding the improvement of better highways, improved rivers and better distribution of food products so that in case of war the government would be equipped to feed the army.

## 'CARDUI IS A SPLENDID TONIC'

Says Boyd Lady in Telling of Her Experience With Cardui. Recommends It To Others.

Boyd, Ala.—"About six years ago," writes Mrs. Emma McBride, of this place, "I got run down in health. . . . My weight went down to less than 140, and I am a large woman, and have large bones. My usual weight is much more. I got a very bad complexion and was dark under my eyes. . . . I kept getting worse all the time, would be so very nervous, that, at times, I'd have nervous chills. Couldn't rest well at night for some time. . . . I suffered great pain in stomach or lower abdomen, big, left side, and back, also had a dull headache. I could hardly do my work at all, could only drag around all the time, and finally for 2 weeks I was confined to my bed and suffered great agony all the time.

Mrs. McBride recommended that I take Cardui. I began using it and when I started on the second bottle, I could see that I was getting a whole lot better. After using the third bottle, I felt I didn't need any more medicine whatever. I never had another nervous spell after taking the Cardui. . . . It's a splendid tonic. I do hope women suffering as I did will use it."

If you suffer as this lady did, try Cardui, the woman's tonic. For sale by all druggists.

## MANY CASES OF RHEUMATISM NOW

Says We Must Keep Feet Dry, Avoid Exposure and Eat Less Meat.

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jag Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jag Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

## CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more yawning, sniffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

## Lungs Weak?

Generous Offer of Tuberculosis Sufferers of Trial of Europe's Remarkable Remedy, SANOSIN.

World's noted medical scientists—Doctors Danielius, Sommerfeld, Wolf, King, Peters—declare SANOSIN the most effective treatment for pulmonary ailments yet discovered. Felix Wolff, Court Physician, Director of the Sanatorium for Consumption in Heidelberg, Germany, says he has used all other remedies. SANOSIN has been officially recommended to the Berlin Medical Association. Dr. C. W. A. Esser, Amsterdam, Holland, declares it a "Moral obligation to make SANOSIN known to the whole human race." American sufferers, rich or poor, can use this remarkable home treatment that has met with such phenomenal success in Europe. SANOSIN does its work by absorption of Germs—not an injection. Produces calm, restful sleep without Morphium or similar deadening drugs. Brings almost immediate relief from coughing, blood spitting and night sweats. SANOSIN is proving a blessing to all suffering from Tuberculosis, Bronchitis, Asthma, Catarrh, Whooping Cough, etc. Send for FREE BOOKLET (with testimonials) explaining this treatment and how a Trial can be made in your own home at our risk. Address SANOSIN, Dept. 111, Untley Bldg., Chicago.
